

[illegible]

The image displays a large triangular arrangement of 120 circles, each containing a 6-letter code. The circles are color-coded in a gradient from yellow at the top to red at the bottom. The codes are arranged in a way that suggests a complex pattern or sequence, possibly related to the '6-letter codes' mentioned in the text.

The image displays a large triangular arrangement of 100 circles, each containing a unique 8-bit hexadecimal code. The circles are color-coded in a gradient from yellow at the top to red at the bottom, with a black outline for each circle. The codes are arranged in a way that suggests a binary or hexadecimal sequence, with some codes appearing to be in a specific order (e.g., &000000, &000001, &000002, etc.). The overall shape is a large triangle, with the circles arranged in rows that decrease in number from top to bottom.
